

CONFIDENTIAL

WHITE HOUSE OF THE PRESIDENT
OFFICE OF DEFENSE MOBILIZATION

WASHINGTON 25, D. C.

June 3, 1955

Honorable Allen W. Dulles
Director
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Dulles:

Executive Order 10312, dated December 10, 1951, "Providing for Emergency Control Over Certain Government and Non-Government Stations Engaged in Radio Communication or Radio Transmission of Energy", directed that Government agencies owning and operating radio stations prepare and put into effect such plans as may be necessary to minimize the use of electromagnetic radiation of their stations as navigational aids for hostile aircraft or guided missiles.

It is therefore suggested that you arrange for a review of your current CONELRAD Plan for the purpose of determining whether it is adequate to meet the requirements of EO 10312 or whether a revised plan is necessary to provide for changes in radio stations operated by the Central Intelligence Agency which may have resulted during the interim.

It will be appreciated if at the conclusion of your review you advise us of your findings or of changes that you wish to make.

Sincerely yours,

F. C. Alexander
Deputy Assistant Director
for Telecommunications
